DAYTONA BEACH INTERNATIONAL AIRPORT

BIKETOBERFEST 2012

Airport Motorcycle Trailer Parking Program

October 18, 2012 through October 21, 2012

Introduction: During Biketoberfest 2012, beginning Thursday, October 18, 2012 and ending Sunday, October 21, 2012, Daytona Beach International Airport will set aside 188 long term parking spaces for parking of individual motorcycle trailers and tow vehicles. Trailers or tow vehicles parked must not extend beyond the size of individual parking spaces, which are approximately 9 feet wide by 20 feet long. No parking is available at the Airport for large semi tractor-trailer rigs under this program. A diagram showing the location of the motorcycle trailer and tow vehicle parking area is shown on Attachment 1. In the event demand for motorcycle trailer and tow vehicle parking exceeds the area shown, an expanded adjacent parking area may be activated, as needed and if available.

Airport Hours of Operation: Airport parking lots are open 24 hours per day, 7 days per week. The parking lot is lighted and regularly patrolled by the Volusia County Sheriffs Office and Airport personnel. The Airport is not responsible for any damage, vandalism, or other destruction of vehicles parked in the Airport parking lot.

Access to the Airport: Attachment 2 provides a map showing access to the Airport over area highways, including Interstates 4 and 95. Detailed information about the Airport, including scheduled commercial airline service and other customer information is available on the Airport's website at: www.flydaytonafirst.com.

Motorcycle Trailer and Tow Vehicle Parking Rates: Rates for motorcycle trailer and tow vehicle parking are for a minimum flat rate period beginning October 18, 2012 and ending October 21, 2012 as follows:

Trailer Parking Only (one (1) parking space): $100.00

Trailer Parking Plus Tow Vehicle (two (2) parking spaces): $125.00

(Additional spaces, three or more, will be charged at $50 per week)

Early exit from the motorcycle trailer and vehicle parking lot, prior to the conclusion of Biketoberfest shall not entitle parking patrons to a refund hereunder.

Operation: Prior to arrival at the Airport, patrons should remove motorcycles from the motorcycle trailer and drop them off at the hotel or other accommodation, which will be used during Biketoberfest. Airport vehicle gate arms and other automatic systems in use at the Airport may not properly operate with motorcycles due to lower weight and reduced mass compared to other vehicles. In the case of gate arms, this can create a safety hazard where a gate arm may not operate or may come down too soon, possibly injuring the motorcyclist or passenger or damaging the bike. For this reason we request that motorcycles be dropped off prior to arriving at the Airport.

Neither the Airport, Volusia County nor Republic Parking will assume any liability for motorcycle exits through automated gate arm equipment or use of Airport parking lots that may result in injury or property damage in the manner described.

Follow these procedures to register your vehicles:

- ✓ Upon initial arrival at the Airport, patrons should follow the signs to Long Term Parking.
- ✓ Upon entering the parking lot, patrons should press the green button, take a ticket and follow the signs to the area marked Motorcycle Trailer and Tow Vehicle parking only as shown on Attachment 1.
- ✓ Upon arrival at the designated motorcycle trailer and tow vehicle parking area, patrons should immediately park and walk to the parking exit booth office (Shown on Attachment 1) and register their vehicle(s) by completing and turning in the attached form, Attachment 3 and the parking ticket initially obtained upon entry into the Airport parking lot.
- ✓ The attendant will collect the minimum charge as noted above and provide a Parking Pass that will allow pickup of parked vehicles when needed, without further charge. Parking Passes should be used for exit at the credit card exit lane only.

It is very important that the registrant complete Attachment 3 information and provide it to the parking lot attendant immediately upon arrival at the Airport in order to register the motorcycle trailer and tow vehicle with the Airport and pay applicable parking fees. An inventory of trailers will be taken each night and any unregistered motorcycle trailer or tow vehicle may be subject to being towed off Airport property at the owner's expense. Registration must be done at the parking exit booth with Republic Parking, the parking lot operator. Upon registration, Republic Parking will issue a Parking Pass for the person listed on the registration form (Attachment 3). Although Airport parking lots are lighted and regularly patrolled, neither the Airport, Volusia County nor Republic Parking, (the parking lot operator) will assume liability for missing or damaged property. All vehicles left parked on Airport property should be secured and locked by owners.

During Biketoberfest, the motorcycle and tow vehicle-parking area may not be used for picnics, camping out, tailgate parties, social congregation or any other use outside of this program. The area is being provided for the sole purpose of parking trailers and tow vehicles.

For trailer and/or tow vehicle pick-up and departure, patrons should use their Parking Pass at the parking lot entrance and exit lane marked ETICKET EXPRESS. Use the Parking Pass as you would swipe a credit card. Parking Passes will automatically expire at 12 midnight on October 21, 2012. Standard Airport parking rates will apply before October 18 or after October 21.

All questions concerning trailer parking should be referred to one of the following:
